# Celebrate Life's Moments with an *Ovation*

Some of the most memorable performances occur off stage. From your daughter's first steps to the day she walks down the aisle—it's those life moments that make us want to stand up and cheer.

So when it comes time to make her first ballet costume or a dress for the prom, choose a serger that will deliver pristine stitches every time. The Baby Lock Ovation is the future of serging. It has an extra-large workspace and original Baby Lock patented features. For all you do to make those precious moments special, it's time for your Ovation.

# It's Time for Your *Ovation*

# This Machine is so *Impressive*
# It Deserves a Round of *Applause!*

With already impressive air threading and automatic tension adjustments, how did the Baby Lock Ovation top its predecessors? It got bigger. This new machine has five inches to the right of the needle—that's more space than any other serger! With a large workspace and other new, convenient features, the Ovation opens the door to modern serging.

You know I love sharing my favorite sewing tips, techniques and products with you through the PBS series Sewing With Nancy. For over 30 years, you've given me overwhelming encouragement and support… Well, now it's your turn. As a creative, talented, dedicated sewist, I know you have a deep passion for sewing, and you deserve a machine that will enhance your entire experience—the Baby Lock Ovation.

# Unlock Your *Creativity*

From dazzling costumes to elegant recital gowns, sometimes our eyes decide what's worthy of an ovation. Add awe-inspiring details to every project with the Baby Lock Ovation. What can you do with an extra-large workspace and 87 stitch combinations? You'll find that you can do a lot more than finish edges and create seams.

## *Stretch Your Vision — 5" to the Right of the Needle*

With five inches to the right of the needle, you'll enjoy creative serging like never before. Embellish yards of fabric with decorative cover stitching, and easily serge large projects with room to spare!

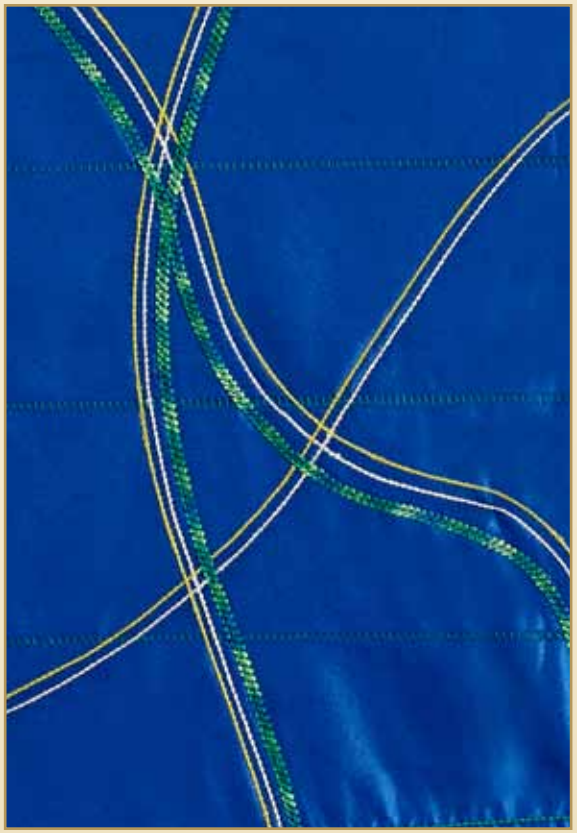
Actual Size

# *Discover Endless Creative Possibilities with 8 Threads*

With eight threads,  you'll be amazed at all your serger can do. Baby Lock's patented 8/7/6 Thread Stitch Capacity gives you more serger stitch combinations to use on every project—87 in all! And thanks to the Fabric Support System, no matter which stitch you choose or what fabric you're using, you'll achieve a flat, balanced stitch.

Plus, you get cover stitch and overlock capabilities in one machine. This makes it easier to go from one technique to another or even overlock and cover stitch at the same time! You only need one dial to adjust the thread for the chain, cover and triple cover needles.

8/7/6 STITCH THREAD CAPACITY



COVER AND CHAIN STITCH

FABRIC SUPPORT SYSTEM

# *Embellish with Decorative Serging*

The Ovation is made to add flare to every project. When you're ready to add a rolled hem, a quick turn of a dial will get you set to stitch. You can let your creativity flow freely without worrying about machine settings.

The Ovation also has unique features tailored to creative techniques. With the ability to chain off a cover stitch, you can create cords and trim. And the Exclusive Wave Stitch is a great addition to home décor, dresses, bags and more.

# Experience the *Innovation*

When impossible does not exist, you'll know you're using a Baby Lock serger. Baby Lock was the first to introduce the world to sergers with easy air threading and no tension knobs. With Baby Lock patented features, the Ovation steps into a new realm of serging—expect the unexpected.

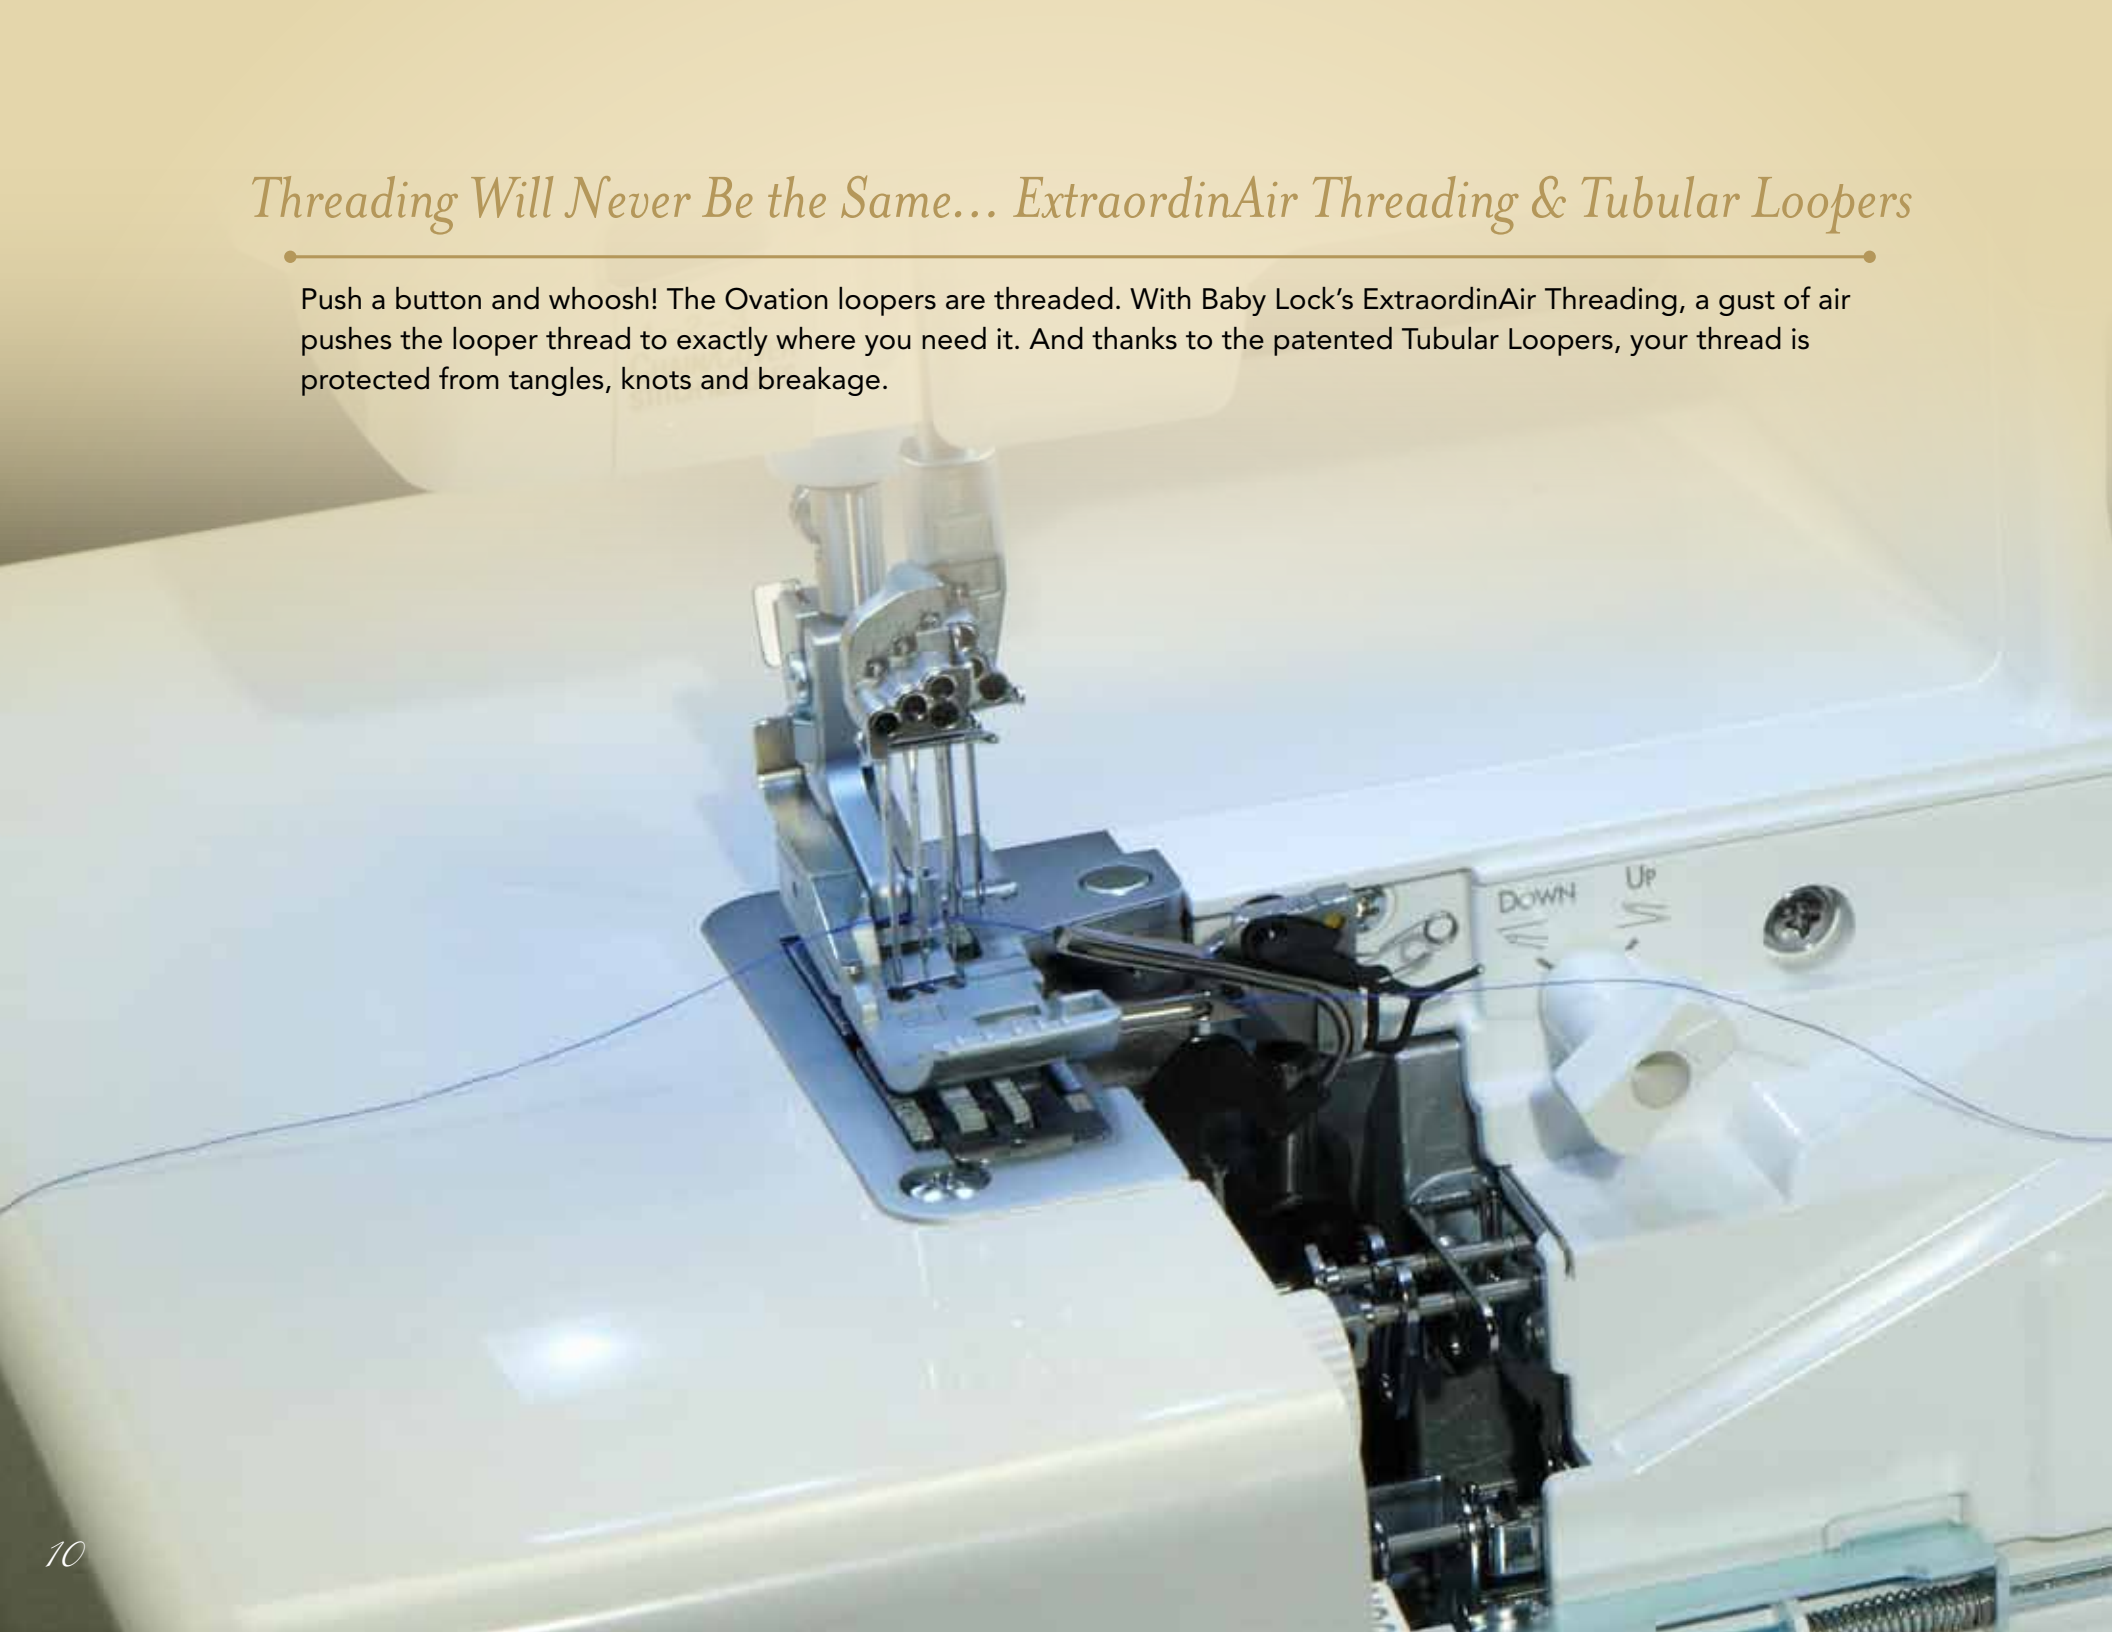
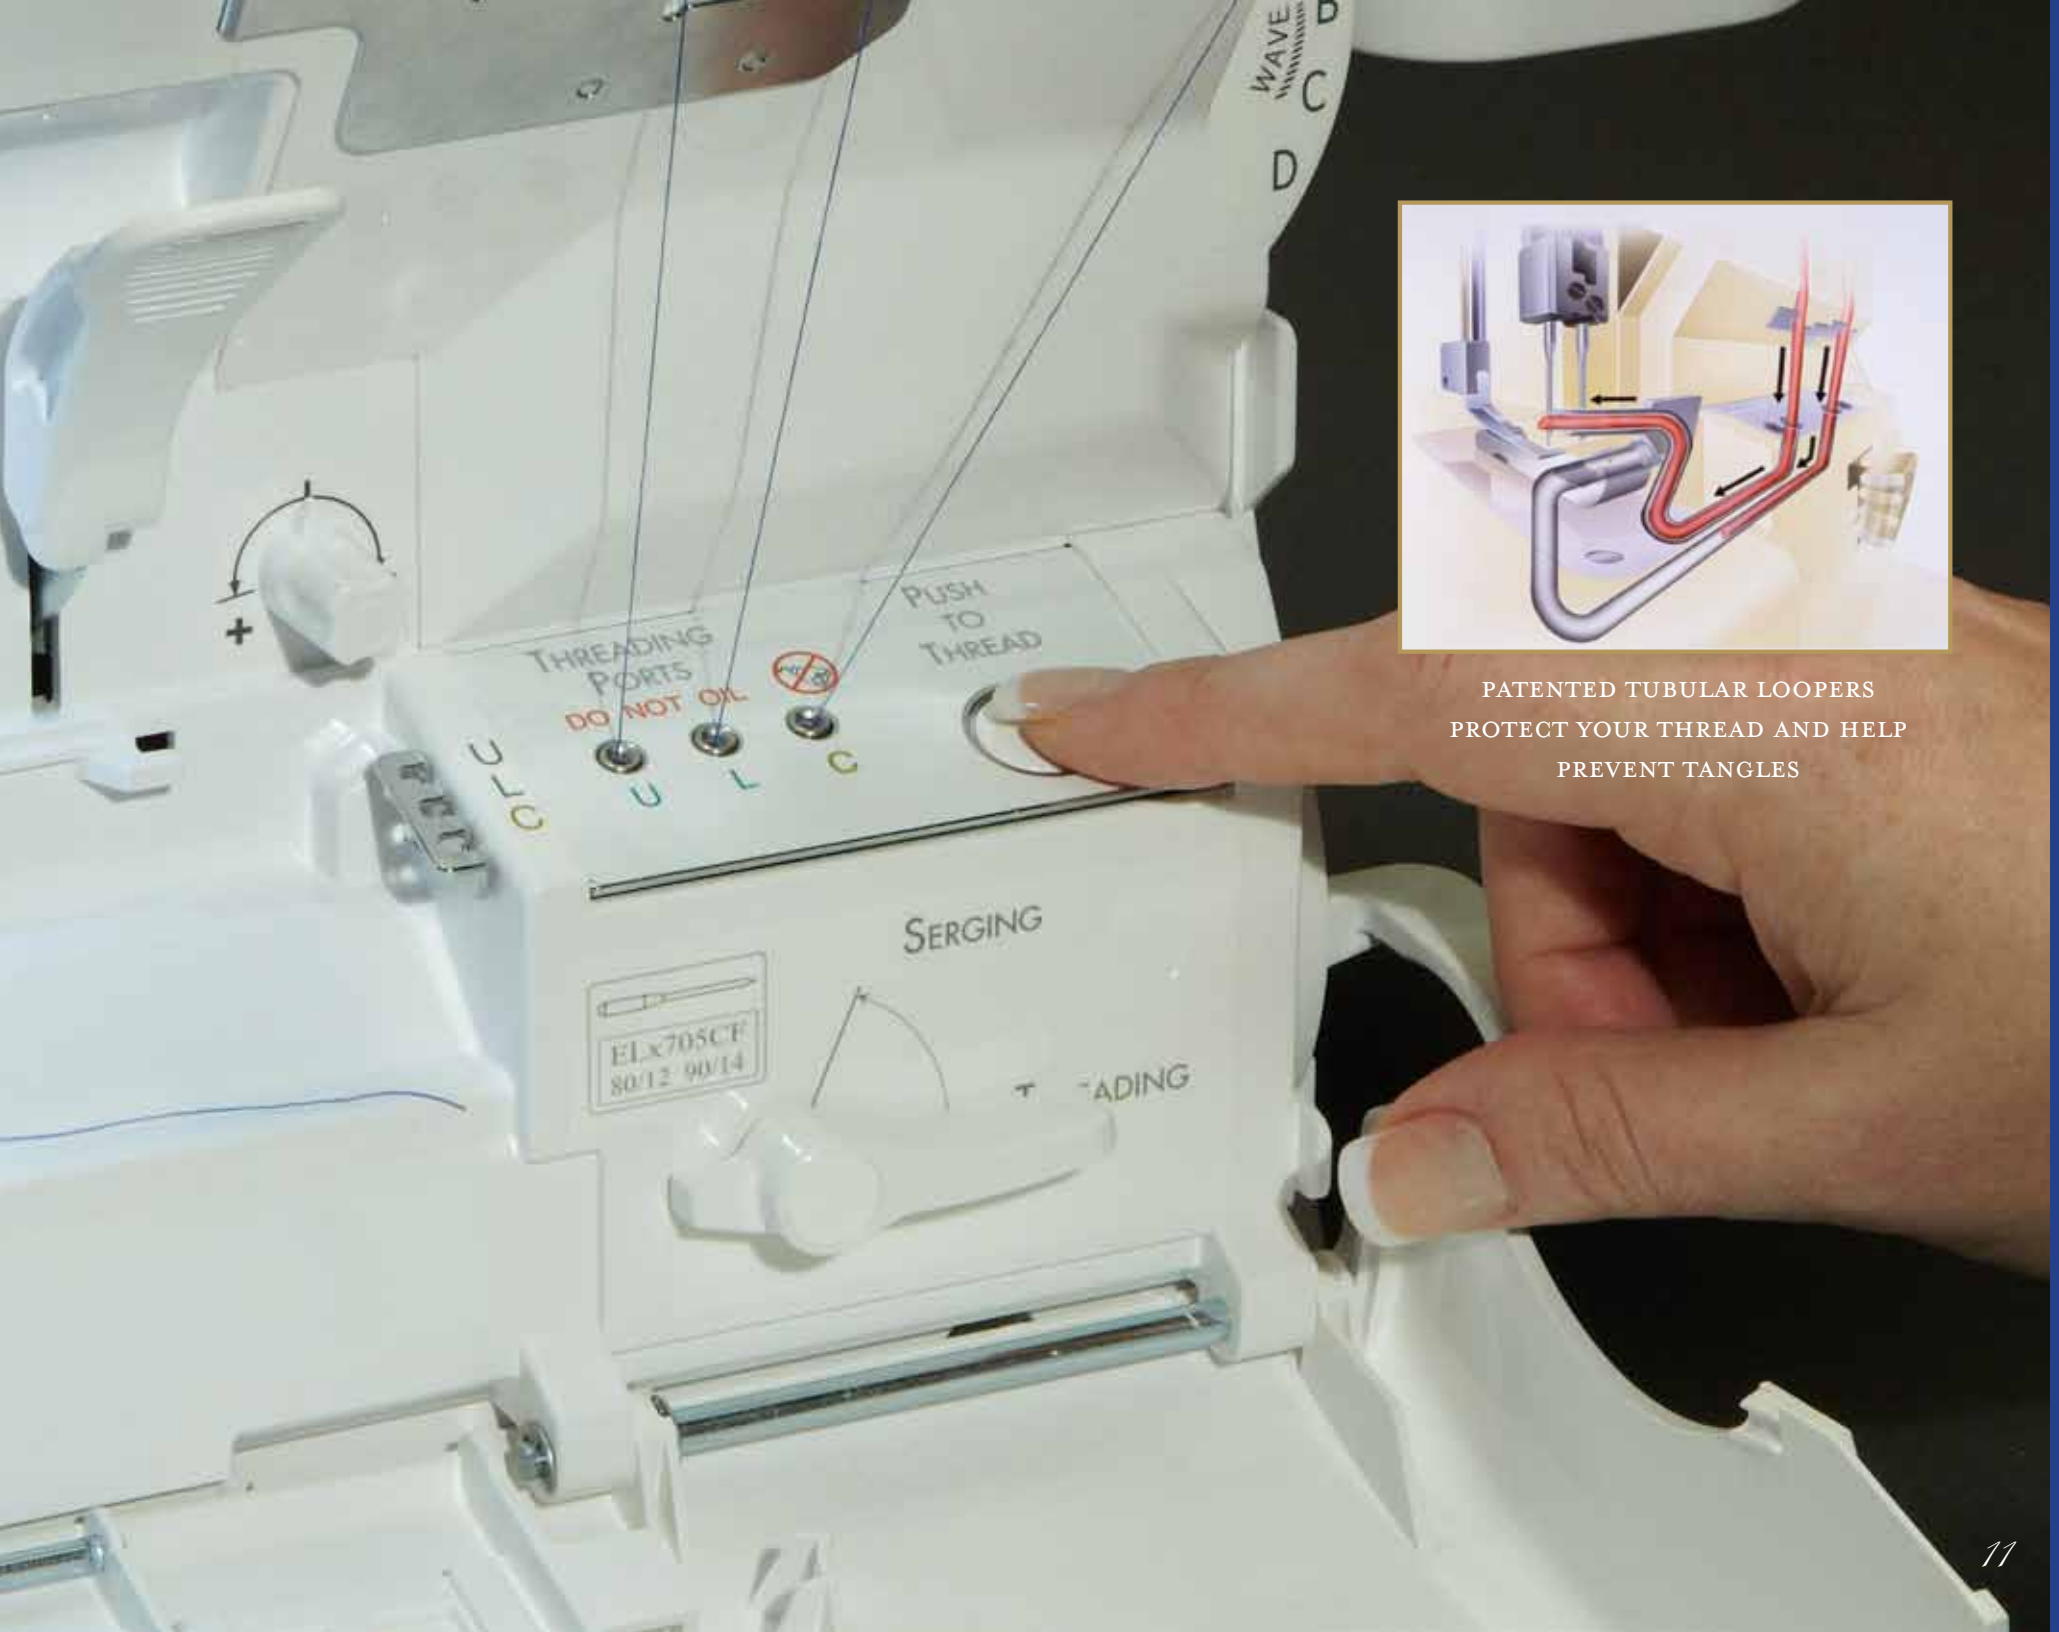
# *Threading Will Never Be the Same… ExtraordinAir Threading & Tubular Loopers*

Push a button and whoosh! The Ovation loopers are threaded. With Baby Lock's ExtraordinAir Threading, a gust of air pushes the looper thread to exactly where you need it. And thanks to the patented Tubular Loopers, your thread is protected from tangles, knots and breakage.





PATENTED TUBULAR LOOPERS PROTECT YOUR THREAD AND HELP PREVENT TANGLES

## *Yes, It's as Easy as it Looks—No Tension Knobs*

Serging is hassle-free thanks to Automatic Thread Delivery™ (ATD). This patented technology ensures you'll never have to touch a tension knob when you're using the Ovation. Go from Lycra to denim without changing any settings—the Ovation does it for you!

And ATD lets you thread your loopers in any order. No more unusual sequences to remember—simply put the thread in the port and leave the rest to the Ovation.

## *Gather One & All — Enjoy a Precise 2:1 Ratio*

When you need to add ruffles to your granddaughter's dress or create a gathered bed skirt for your son's first home, you need an accurate gather. The patented Full-Featured Differential Feed will give you that precise 2:1 ratio you seek.

# Enhance Your *Performance*

It's time you serged the way you've always dreamed of serging. Give every project a professional finish with the Baby Lock Ovation. Enhance your performance of new techniques with helpful features dedicated to precision.

FOR THE LOVE OF SEWING

## *Embrace Bright Ideas – Pure Lighting with 6 LED Lights*

The bright Pure Lighting with six LED lights lets you see your threads and fabrics clearly. Better lighting means you'll have more confidence to try new stitches and techniques. You'll see how the most subtle details can make the biggest difference in every performance.

# *Give Yourself a Hand — Convenient Features for More Hands-On Time*

Grow your serging confidence with the Ovation. The Variable Speed Control lets you choose your maximum speed so you can be sure that you're always cruising in comfort.  And Baby Lock has moved the presser foot lift to the front of the machine so you can make adjustments even quicker. Used to lifting the presser foot with your knee? No problem; the Ovation has a knee lift, too. These features will help you make speedy changes and keep your hands free for precise stitching.

NEW VARIABLE SPEED CONTROL

NEW FRONT MOUNTED PRESSER FOOT LIFT

NEW PRESSER FOOT KNEE LIFT

# *Truly Cutting Edge & Durable*

The Ovation works seamlessly with all types of fabric. If you often use thicker material such as denim or corduroy, you'll be amazed at how cleanly the knife cuts your fabric. And, you'll notice the needle moves directly up and down to avoid needle deflection and damage to the fabric.

Pair these vertical needles with the protective Looper Drive System and you can serge worry-free. Even stitching at 1,500 stitches per minute, you will avoid unwanted repairs because your loopers will stay aligned.

PATENTED ADVANCED KNIFE DRIVING & ONE WAY CLUTCH SYSTEMS

PATENTED VERTICAL NEEDLE PENETRATION

PATENTED LOOPER DRIVE SYSTEM

# Ovation Serger Specifications

## Technology Features

- ExtraordinAir™ Threading
- Automatic Thread Delivery™ System
- Pure Lighting with 6 LED lights
- Wide workspace of 5" to right of needle and 3" tall
- Full-Featured Differential Feed
  - 2 to 1 ratio - gathering
  - 3 to 4 ratio - stretching
- Knee lift
- Variable sewing speed control

## Advanced Serging Features

- Exclusive Wave Stitch and Reverse Wave Stitch for additional stitch options
- Serging options from 2 to 8 threads
- Chain/cover stitch functions include single, double and triple cover stitch
- Overlock stitch functions to seam and encase fabric edges
- Flatlock stitch functions for seaming or decorative effects
- Advanced cutting system handles thick fabrics with ease
- Automatic rolled hem stitch functions create a professional finish
- Dial adjustable stitch width: 1.5mm - 7.5mm, up to 16mm wide on expressive stitches
- Dial adjustable stitch length: 0.75mm - 4mm
- Dial adjustable built-in rolled hem
- Bypass port for special thread
- Up to 1,500 stitches per minute
- Adjustable presser foot pressure dial

## Convenience Features

- Built-in thread cutter
- Electronic foot control and separate power cord
- Presser foot lever in front for easy access
- Snap-on, multi-purpose presser foot
- Built-in larger accessory storage
- Built-in ribbon/tape guides
- Easy full-color threading chart
- Color-coded single antennae with thread guides
- Wide sewing table for chain/cover stitching
- Needle drop tray with magnet
- Needle clamp safety plate prevents lost needle screws
- Safety switch on front cover door
- Power cord manager on machine base
- Household Needle System
  - ELx705
  - ELx705CF
- Warranty (25 yrs. limited, 10 yrs. parts, 5 yrs. electrical, 1 yr. labor)

# *The History of the Baby Lock Serger*

The Baby Lock legacy started nearly 50 years ago. In 1964, a group of engineers and middle managers at a Japanese industrial sewing company presented a concept for a redesigned industrial serger. They wanted to create a smaller, lighter model for home sewer use. This was the birth of a small machine that could produce an overlock stitch—a "baby lock".

A St. Louis-based, family-owned company saw the benefit of this new machine and brought it to the United States. This new home serger was the first Baby Lock. It gave home sewers the opportunity to finish garments like a professional manufacturer.

Over the years, Baby Lock has continued to revolutionize sergers. Today Baby Lock has 14 patents to its name. Modern Baby Lock sergers have numerous innovative features making them easy to use for all sorts of projects. ExtraordinAir™ and Jet-Air Threading™, for instance, let you thread your loopers with the push of a button. And thanks to the patented Automatic Thread Delivery™ System, no tension knobs are needed. A balanced stitch is delivered on any fabric with any type of thread.

Impressive features aren't the only things you'll get with Baby Lock. The Baby Lock Retailer Network is dedicated to sewing enthusiasts like you. With unsurpassed features and support, there truly is no substitute for a Baby Lock serger.

# 14 Baby Lock Patented Features

### ExtraordinAir™ & Jet-Air Threading™

Baby Lock's ExtraordinAir™ and Jet-Air Threading™ functions thread your loopers with just one touch.

### Automatic Thread Delivery System™ (ATD)

Your serger will adjust tensions as you go from one fabric to another, leaving balanced stitches. Plus, you can thread your loopers in any order!

### Tubular Loopers

No thread is exposed and there are no confusing, tangling thread guides.

### Looper Drive System

This system keeps the loopers aligned and in time and reduces the possibility of major damage.

### Advanced Knife Driving & One-Way Clutch Systems

Cut thicker fabrics with ease using the exclusive knife system with a larger cutting bite.

### Fabric Support System

Maintain flat, balanced stitches regardless of what speed, fabric or stitch type you use. And, you can adjust the seam and cutting width simultaneously.

### Vertical Needle Penetration

Baby Lock's needles are set vertically to sew by moving directly up and down. This helps you avoid deflection and reduce fabric damage.

### Full-Featured Differential Feed

Gather with a 2:1 ratio on any fabric, even lightweight knits. Baby Lock improved differential feed by adding a single unit feed dog mechanism.

### Adjustable Stitch Length & Automatic Rolled Hem Dial

Adjust your stitch length with the turn of a dial. This dial includes a setting that retracts the built-in stitch finger for an automatic rolled hem.

### Needle Threading System

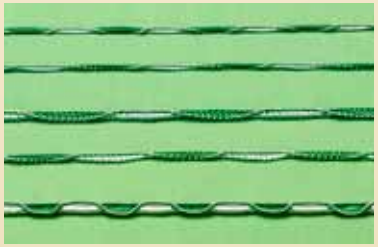
Easily thread the needles with the touch of a lever. Baby Lock's needle threader remains fixed in place as you use it.

### 8/7/6 Thread Stitch Capacity

Enjoy more stitch combinations—87 total. This also lets Baby Lock combine overlocking and cover stitching in one machine.

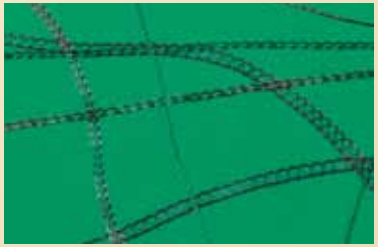
### Cover Stitch Chaining Off

Chain off the cover stitch and start stitching on or off the fabric. It's also useful for creating decorative cords or trim.



### Thread Delivery Unit for the Exclusive Wave Stitch

The Thread Delivery Unit ensures that each beautiful Wave Stitch is even with the next.



### Chain/Cover Tension Disks

Save time by adjusting the thread for the chain, cover and triple cover stitch needles with just one dial.
